

Thank You for Making My Work Useful

Venerable Gyatrul Rinpoche

March 16th, 2019

When asked if he wanted to send any message to the sangha gathered to practice at Orgyen Dorje Den on Guru Rinpoche Day, Rinpoche said:

I have no message!

They are doing tsok. That means they aren't wasting my work. They are taking it and using it, making my work useful.

Over the years, how much work have the centers been—O.D.D., Tashi Choling, Portland and others. So much work!

Therefore, thank you for using them for practice. The centers are for that. For that we have been struggling for so many years. For that I tried—money, work, physically, mentally, everything.

Also amazing lamas have come and really supported us with many blessings: empowerments, transmissions, and all the instructions, the teachings. I did this much [he holds up the tip of his little finger]; and others did this much [he stretches his arms out wide.]

Now you guys are using everything and taking care of everything.

Now I'm really satisfied and happy.

Thank you!

-Gyatrul
