

AFTER DINNER TEACHING PART 6

ALREADY IN YOUR POCKET

Venerable Gyatrul Rinpoche

June 16th, 2021

The following is an excerpt from spontaneous teachings Rinpoche gave one evening while sitting with several students after dinner:

If you want to be smart, actually, the greatest intelligence already belongs to you.

If you want to be liberated, it already belongs to you!

It is not created by reading something. You don't get it from somebody. No.

You just have to make the conditions a little bit right to benefit you, but it is already in your pocket.

You do need to study and practice, though. You have to try or it never happens.
